

02 April 2020

MR. NONITO C. DELA TORRE, MBA, MSERM
Proprietor
DNC- Professional Scientific and Technical Services
Purok 1, Panag, New Bataan, Davao de Oro

Dear **Mr. Dela Torre:**

This is in reference to the Public Scoping Report (PSR) duly received by this Office on 13 March 2020 on the Public Consultation conducted last 02 October 2019 for the Commercial and Residential Mixed-used Re-development Project located in Brgy. 20-B, Poblacion District, J.P. Laurel Ave., Bajada, Davao City.

Please be informed that after careful evaluation of the submitted report, it was determined that your PSR does not contain the proposed design of public participation and analysis of issues raised by stakeholders using appropriate methods pursuant to *Section 8.3C of DAO 2017-15 (Guidelines on Public Participation under the Philippine Environmental Impact Statement System)* which shall be discussed during the Technical Scoping.

Your Public Scoping Report is still accepted subject to the availability of the above-mentioned requirement during the scheduled Technical Scoping on **April 20, 2020** or once the Davao City Enhanced Community Quarantine will be lifted.

Please be guided accordingly.

Very truly yours,

DR. SOPHIE T. MANUEL, CESO V
Regional Director
